

1 Coding Agents

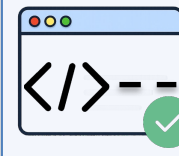

Task

Fix repository code issues and verify them with tests

Output

Runnable code
Changes
(test verified)

Value

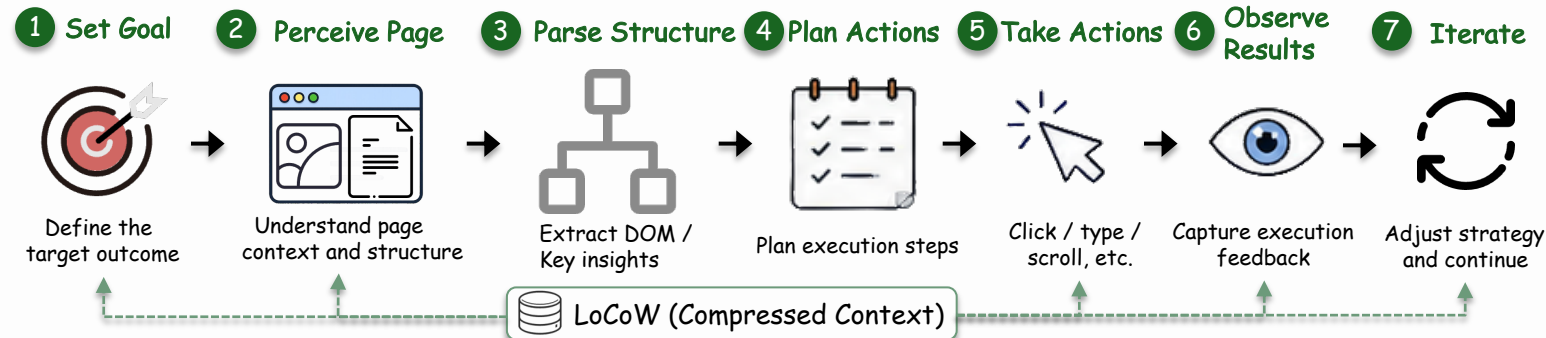

Faster delivery
Higher-quality
code

2 Web & GUI Agents

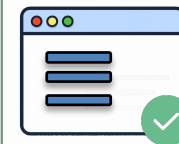

Task

Automate web/UI tasks and produce observable results

Output

Task completed
(target state
achieved)

Value

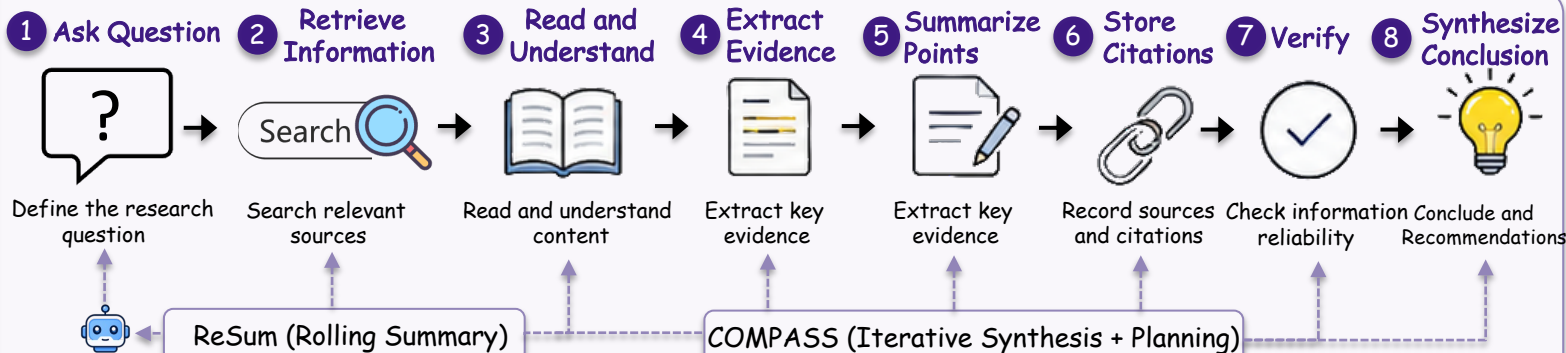

Automated
execution
Lower time cost

3 Research & Deep-Search Agents

Task

Conduct deep research and produce high-quality conclusions with evidence

Output

Research report
(with evidence
and citations)

Value

Deeper insights
Reliable and
traceable
